JULIAN CASILIMAS BELTRAN

JUNIOR PROGRAMMER | SOFTWARE DEVELOPER | BACKEND DEVELOPMENT
Toronto, ON, Canada | 437-445-6610 | julianbeca1230@gmail.com | GitHub

PROFESSIONAL SUMMARY

Recent Computer Programmer graduate with hands-on experience in Python, Java, JavaScript, TypeScript, Node.js, and SQL. Strong foundation in backend development, programming logic, databases, debugging, and testing. Analytical problem solver committed to continuous learning and building practical software development skills.

TECHNICAL SKILLS

- **Programming:** Python, Java, JavaScript, TypeScript, HTML, CSS
- **Backend Development:** Node.js, Backend Logic, Basic APIs
- **Data & Databases:** SQL, Database Concepts, Data Processing
- **Development Practices:** OOP, Testing, Debugging, Documentation
- **Tools & Concepts:** Git, GitHub, NPM, Basic DevOps, Cloud Integration Concepts

PROGRAMMING & DEVELOPMENT SKILLS

Backend Development & Programming

- Developed backend functionality using TypeScript and Node.js for an academic smart agriculture platform.
- Built programming logic for environmental monitoring, automated irrigation, and drone coordination.
- Develop functional modules through ongoing self-directed Python programming.
- Translate technical requirements into structured programming logic.
- Apply object-oriented programming principles to create organized and reusable code.

Problem-Solving & Debugging

- Complete programming challenges requiring analytical thinking and structured problem-solving.
- Debug code to identify errors and improve application functionality.
- Test programming logic and refine solutions based on results.
- Break complex requirements into smaller, manageable development tasks.
- Refactor code to improve readability, efficiency, and maintainability.

Software Development & Technical Projects

- Developed a Smart Agriculture Automation Platform using TypeScript and Node.js.
- Implemented automated disease-detection functionality and structured data processing.
- Structured the application as a reusable NPM package.
- Use Git and GitHub for source code management and project documentation.
- Continue expanding programming knowledge through the 100 Days of Code program.

Technical Communication & Customer Support

- Provided bilingual customer and technical support for Best Buy USA and FedEx Ground USA campaigns.
- Resolved approximately 60 customer inquiries per day using troubleshooting and problem-solving skills.
- Explained technical information clearly to users with different levels of technical knowledge.
- Demonstrated strong communication, adaptability, and attention to detail in a fast-paced environment.
- Consistently worked within established performance and service expectations.

WORK EXPERIENCE

- **Bilingual Customer Service Representative**
  Sitel S.A. | Colombia | Sep 2022 – May 2023
- **Facility Maintenance – Part-Time**
  Toronto, ON | May 2024 – Present

EDUCATION

Computer Programmer Diploma
Lambton College | Toronto, ON | May 2023 – Aug 2025

PROJECTS & CONTINUOUS LEARNING

Smart Agriculture Automation Platform
Academic Project | GitHub & NPM: @julianlambton/smart-agriculture
Python Programming & Backend Logic Development
100 Days of Code – Self-Directed Learning | May 2026 – Present

CORE COMPETENCIES

Analytical Thinking | Problem-Solving | Technical Troubleshooting | Continuous Learning | Attention to Detail | Communication | Adaptability | Time Management | Reliability
